INTRODUCTION

Welcome to the new Citadel Catalogue, a comprehensive listing of Citadel Miniature's range of plastic and metal models.

Citadel Miniatures

Citadel Miniatures manufacture the largest range of metal and plastic gaming miniatures in the world. We make an extensive range of high-quality miniatures and model kits for collectors, modellers and gamers.

What's more, everybody involved with the design of one of our new miniatures is a keen gamer – from the person who develops the initial concept, through the designer of the original model to the guy who does the final casting in white metal. Citadel Miniature are made *by* gamers *for* gamers. Along every step of the way, the miniatures are carefully examined to make sure that they are as good as we can make them.

But, up until now, there was no way to tell exactly what we made. The Citadel Catalogue is designed to change that. The two volumes you hold in your hands are the product of months and months of hard work. Now, for the first time, nearly all of our available miniatures have been compiled together into one place.

We have split the catalogue into two sections for a couple of reasons. The first is that by making the catalogue two volumes, we could separate the Warhammer 40,000 and Warhammer Fantasy miniatures. That way it will be even easier to find the model you want.

Second, at nearly 360 pages the Citadel Catalogue would be so huge if it were one book, that it would push the limits of the binding processes that our printers use. The weight of the pages alone would mean that heavy use would tend to weaken the book's spine and would cause the pages to drop out. As the catalogue will be referred to constantly, and take much more wear and tear than a normal book, we decided to split it into two sections to make it as durable as the printing and binding process allows.

JES GOODWIN

Updating The Catalogue

Of course, while the catalogue was up-to-date when it went to be printed, this won't remain true for very long! As our designers are creating new miniatures at the rate of 3 or 4 a day the Citadel Catalogue will never be fully complete.

Therefore, new catalogue pages will appear each month in White Dwarf magazine, along with articles on collecting, painting, modelling and gaming with Citadel Miniatures. If you keep your catalogue in a box file as we suggest, you can then add the new pages to your collection as they are appear in White Dwarf and keep them ready to hand. White Dwarf is available at all Games Workshop stores, from hobby shops and all good newsagents.

As a reference source for Citadel Miniatures the catalogue does everything we wanted – every single miniature is presented in all its glory. As a source to choose your wargame army, you'll find the catalogue is unparalleled.

As the catalogue contains an example of nearly every single model that we make, it is an invaluable aid to anyone who collects Citadel Miniatures. With it you can plan your purchases, and find exactly the right model for your army.

How the Citadel Catalogue Works

To make it easy to find what you require, the Catalogue has been split up into two volumes: Warhammer 40,000 miniatures and Games Workshop Games are in the first volume, and Warhammer Fantasy Miniatures are in the second. Within these sections, the models or games are further split up into product and range. The Space Orks range, for instance, is a complete set of pages within the Warhammer 40,000 section, while all of the models for Mighty Empires are collected together in the Warhammer Fantasy section.

Each model within a range is illustrated at actual size (unless otherwise noted), so you can see exactly what the model looks like before you buy. Where appropriate, each model has been shown on a plastic slottabase of the correct size for use in our games. When you buy a model you'll automatically get the correct size slottabase you need.

Many of our models now come with separate arms and weapons. Where possible we've illustrated these on the same page, or given examples of the completed models. The plastic arm and weapons which we haven't had room to show on the model's page, but that we have referred to in the model's description, are shown on page 112. The correct sprues will be included automatically when you buy the model.

Some of our more complicated models are made of a large number of pieces. So that you can see exactly what you get with these models, we have illustrated each component separately as well as showing the completed model. We have also included construction diagrams where it isn't obvious how the models go together.

Note that our complicated multi-part models are intended for enthusiasts and you really do require a moderate level of skill to assemble them. They can certainly prove too difficult for young or inexperienced modellers. Please do not order if you are uncertain of your skill!

How to Buy Citadel Miniatures

All of the models illustrated in the Catalogue are readily available throughout Games Workshop stores and good hobby shops.

The best way to buy Citadel Miniatures is to go to a Games Workshop or other hobby store and look at the racks of miniatures. That way you'll be able to examine the models closely and at first hand. Games Workshop staff, who are all gamers and collectors like you, will be more than happy to help you choose exactly which miniatures you require, or offer advice on how to prepare and paint your models.

Every Games Workshop Store has a wide selection of painted models, and runs regular painting and modelling sessions for both beginners and experts.

A Final Word

We've spent a very long time putting the catalogue together. At times we thought we'd never get it finished. Many months of hard work have gone into what we believe is the definitive collection of gaming miniatures in the world.

We're sure that the Citadel Catalogue will be an invaluable guide to every single Warhammer gamer, collector and modeller. We hope you agree.

IMPORTANT

Citadel Miniatures are intended for collectors, modellers and gamers.

THEY ARE NOT TOYS.

Our metal models contain lead which can be harmful if ingested, but there is no real danger if you are sensible. Please follow these simple instructions:

– Please do not put them in your mouth or lick them.
– Do not buy them for or give them to small children.

Our miniatures should never be given to children under 14, nor to older children who you cannot trust not to suck them.

Citadel Miniatures are supplied unpainted and without banners. For painting your miniatures we recommend you use Citadel paints and brushes. Where our models require construction, we recommend you use Citadel Polystyrene Cement and Citadel Superglue. For Citadel paints, brushes and glues see page 156.

In the last 5000 years the design of Space Marine armour has evolved through many stages, from Mark 1 to the Mark 8. Many Chapters still use all the different types, with the early models regarded as the Chapters Heirlooms. These early armours, once worn by the Chapter's greatest heroes, have been embellished by the Chaplains Artificers, who create the Chapters equipment and honour badges. The following pages show Space Marines in one or other of the variant types of Armour

CITADEL® MINIATURES®

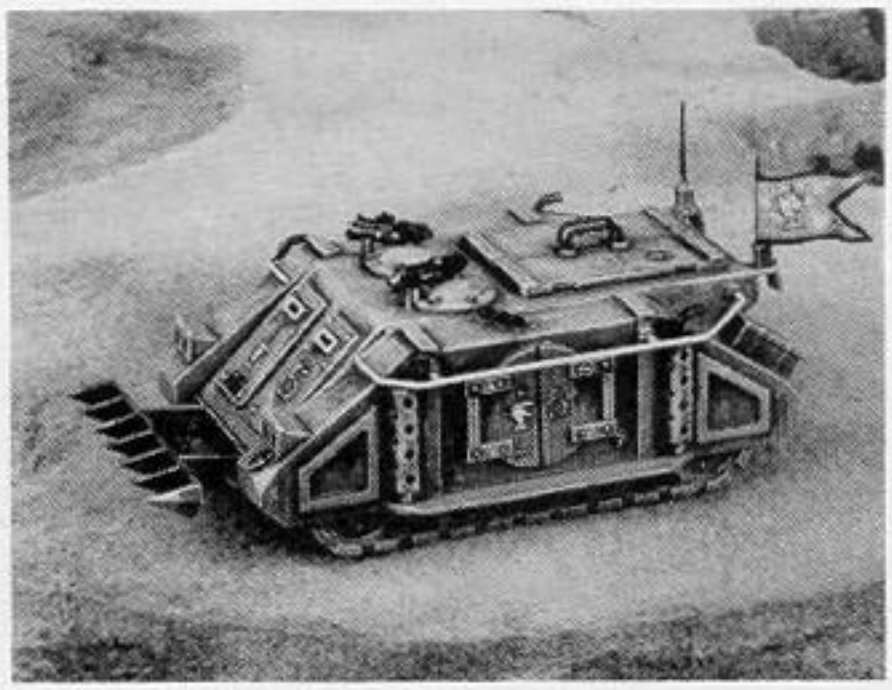
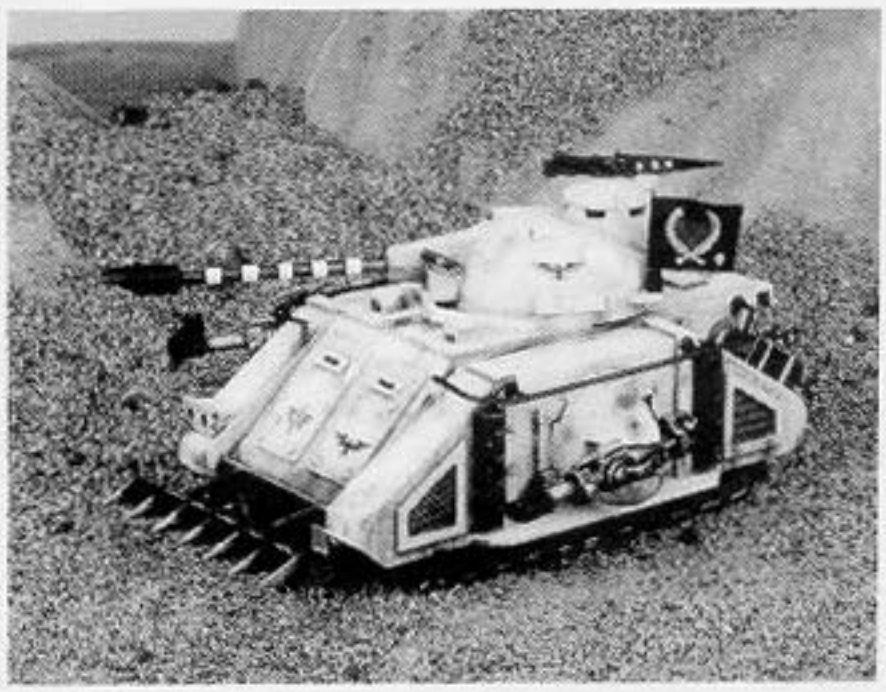
RHINO & PREDATOR



The Imperial warrior is part of the most potent fighting force of the 41st Millennium. That force must be ready to move at a moment's notice, to meet and defeat the enemies of Mankind throughout the galaxy. Their battlefield transport is the Rhino Armoured Personnel Carrier, a vehicle tough enough to take a full squad to the heart of the fighting whilst packing the considerable punch of twin Bolt Guns.

EACH RHINO KIT CONSISTS OF:
2 x RHINO TRACK SPRUES
2 x RHINO CHASSIS SPRUES



The Predator is the Imperium's assult tank, combining highly effective firepower with mobility. Designed around the standard Rhino APC chassis, the Predator is armed with a pair of las-cannon and a turret-mounted auto-cannon. It is widely used by both the Space Marines and the Imperial Guard as an assult vehicle, breaking through enemy lines at the head of the advancing troops or moving rapidly across the battlefield using its heavy firepower to stop the enemy dead.

EACH PREDATOR KIT CONSISTS OF:
1 x PREDATOR CHASSIS SPRUE
1 x RHINO CHASSIS SPRUE
2 x RHINO TRACK SPRUES

WARHAMMER 40,000

WARHAMMER 40,000 RULEBOOK

There is no time for peace. No respite. No forgiveness. There is only war.

The galaxy is a hostile place. There are alien forces that would enslave or destroy mankind if they could. Wars rage over cold, airless planets, among the blasted cities of hive worlds, and within the borders of the Imperium itself. Only the Space Marines, the finest warriors in the Imperium, can save the galaxy from destruction. Dedicated to the Emperor's service, the Space Marines are men strengthened by advanced bio-processing techniques to create the ultimate fighting force.

Warhammer 40,000 is a miniatures-based tabletop game designed for two or more players. You represent the forces of the Imperium or any one of the many enemies ranged against its borders. It is suitable for games varying in size from simple skirmishes to full scale battles.

WARHAMMER FANTASY BATTLE

WARHAMMER FANTASY BATTLE RULEBOOK

Cold dank mists rolled across the battlefield. The two sides formed up in sweeping lines, waiting for the order to charge. The day of reckoning was here, and its outcome was to be decided in combat.

In Warhammer Fantasy Battle mighty armies clash together, valiant Humans struggle to hold back the tide of Chaos sweeping down from the north, Dwarfs defend their mountain strongholds from rampaging Orcs and Goblins, and Elves harry the evil creatures which assail their forest homes. Across the Old World, all manner of races test their mettle in pitched battle.

Warhammer Fantasy Battle is a miniatures-based tabletop game designed for two or more players. With this rulebook, fantastic conflicts can be fought out over a tabletop battlefield – from small skirmishes to truly awe-inspiring epic battles.

This book explains the basic game, provides the advanced rules, a magic system, an in-depth description of the Warhammer World, a bestiary and a ready-to-play battle so you can get into the action right away.

0114 Softback Rulebook (304 pages: 2 or more players aged 14-adult)

WARHAMMER ARMIES

Throughout the Warhammer World, from the forests of The Empire to the jungles of Lustria, from the Elven Kingdoms to the Chaos Wastes, mighty armies are on the move. Massed ranks of highly-trained troops march upon each other, leaving great swathes of destruction in their wake. So raise the standard and let battle commence.

Warhammer Armies contains rules and army lists for Bretonnians, Chaos, Dark Elves, Dwarfs, The Empire, High Elves, Orcs and Goblins, Skaven, Slann, Undead and Wood Elves.

Also included are numerous ally contingents and mercenary bands, including Giants, Ogres, Norse, Nippon, Fimir, Hobgoblins and Pygmies, and rules for army composition, new magic weapons and war machines.

Warhammer Armies is an indispensable aid for all Warhammer Fantasy Battle players. Packed with illustrations of all the troop types, plus hundreds of shield and banner designs (many in full colour), it also includes revised record cards and a handy game reference sheet.

0117 Softback Rulebook (148 pages)
(Warhammer Fantasy Battle or Warhammer 40,000 is required to use the contents of this book)

REALM OF CHAOS

The material world is not the only plane of existence. There is an immaterial world which co-exists with our own and forms a parallel dimension or alternative reality. This is the Realm of Chaos. In the Realm of Chaos there are no planets or stars, no lands, sky or features that we would recognise. Instead it consists of an endless sea which is not formed of physical matter but pure energy. This energy is the raw matter of the Chaos Powers and of all magic. The Chaos Powers are immortal creatures with unimaginable abilities and resources. There are many lesser powers but only four great ones: Khorne, Slaanesh, Nurgle and Tzeentch. *The Lost and the Damned* and its companion volume *Slaves to Darkness* describe the fantastic and otherworldly Realm of Chaos. Both volumes contain invaluable background material and rules for all players of Warhammer 40,000 and Warhammer Fantasy.

REALM OF CHAOS - SLAVES TO DARKNESS

Slaves to Darkness contains everything you need for campaigns set in the Chaos Wastes of the Warhammer World. This book contains army lists (for Warhammer Fantasy Battle and Warhammer 40,000) for followers of the two great Chaos Powers, Khorne and Slaanesh. It also includes full details of the Magic of Chaos and the foul mutations which warp the bodies and minds of its followers and a complete generation system for Chaos Champions and their retinues.

0111 Hardback Rulebook (280 pages)

REALM OF CHAOS - THE LOST AND THE DAMNED

The Lost and the Damned is the second part of Realm of Chaos. It covers the two Chaos Powers, Tzeentch and Nurgle. It includes an extensive narrative campaign section, details of Chaos runes, the Dark Tongue, Lesser Powers and creating independent Daemons, Chaos Warbands and Champions of Chaos. There are also sections on Beastmen, Centaurs, Minotaurs, Dragon Ogres, Daemon Legions of Chaos and Chaos Renegades.

0112 Hardback Rulebook (296 pages)

(Possession of Warhammer 40,000, Warhammer Fantasy Battle or Warhammer Fantasy Roleplay is necessary to use these books)

MIGHTY EMPIRES

MIGHTY EMPIRES

In Mighty Empires, players lead armies in ferocious battle, cities are laid waste, fortresses besieged and brought low, and unknown territories explored. The ultimate objective is to destroy your enemies and expand your empire to cover the entire world. Diplomacy and intrigue play an important part too. Secret agents, spies, assassins and saboteurs can be dispatched to root out secrets, and wreak havoc from within the enemy's homelands.

Mighty Empires contains 112 full colour hexagonal map tiles, 150 plastic Citadel Miniatures (15 cities, 15 fortresses, 15 dragons, 15 ships, 45 villages and 45 army banners), over 160 territory markers, dozens of counters, 6 strategic battle cards, 1 sheet of self adhesive flags, 2 dice and a rulebook.

0122 Boxed Game (2-3 players aged 14 - adult)

SPACE MARINE

Space Marines and the Titan Legions are the embattled defenders of the Imperium. Against them are arranged the implacable enemies of mankind. Throughout the galaxy, hordes of barbaric Orks rampage and destroy, driven by their insatiable racial need to conquer and enslave.

Other races also find themselves caught up in the battle for survival. The ancient and technically superior Eldar are bound in their age-long struggle against extinction. Their advanced weaponry and acute psychic powers make them formidable in battle and worthy opponents for Space Marines and Orks.

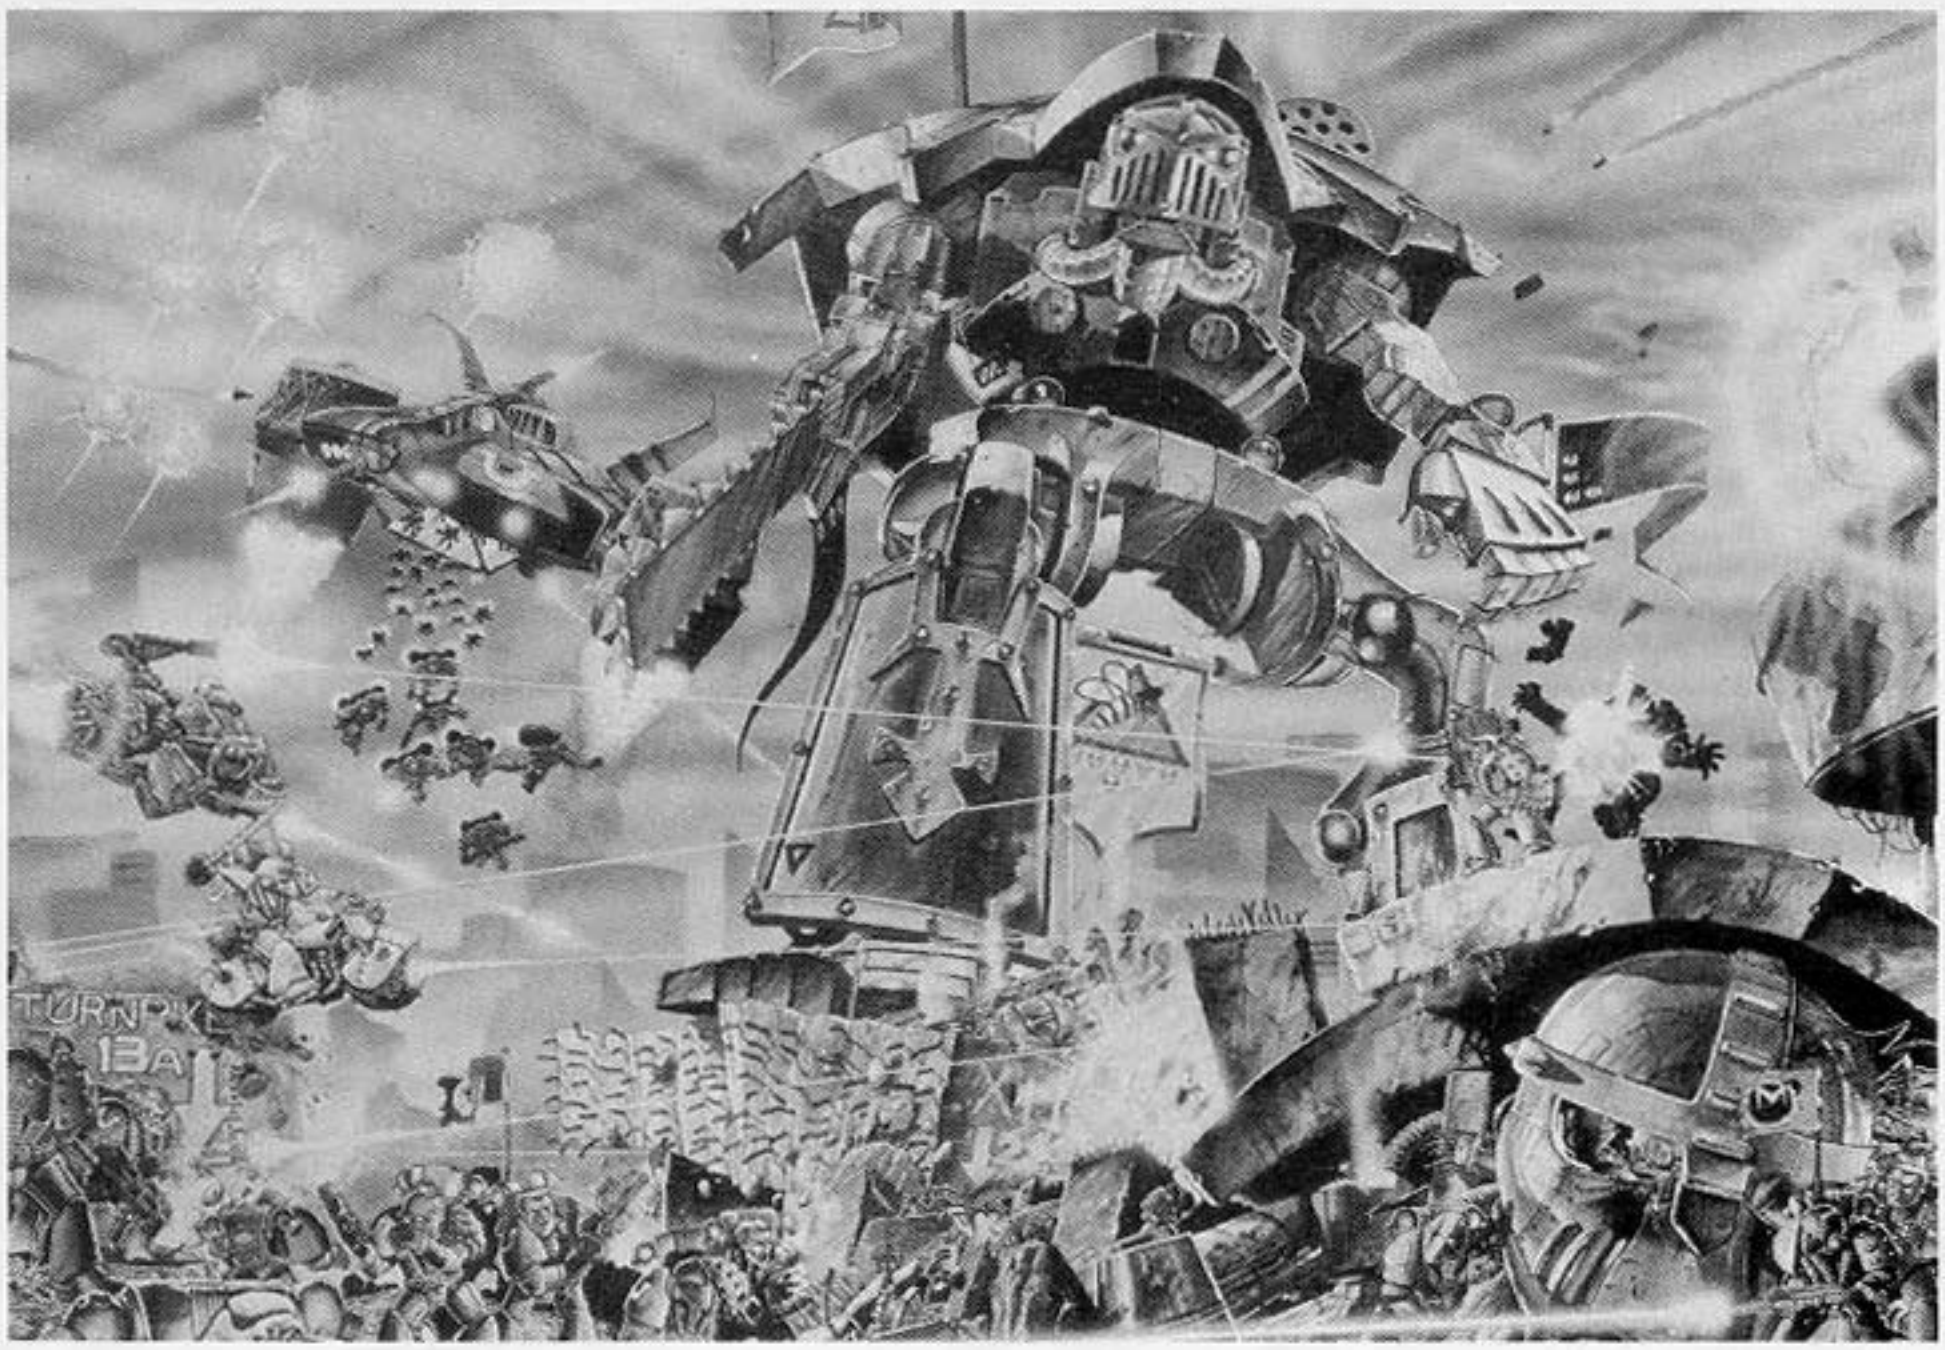
The Space Marine game provides rules which allow you to represent all this on the tabletop - and much more besides. The clear and instructive rulebook carefully explains how to assemble your army using the special epic army cards provided in the game. The game rules cover all the Eldar, Ork and Space Marine models in the Space Marine game box - plus a variety of models from Citadel Miniatures' Epic scale range. This new and original game system is easy to learn and exciting to play.

As the commander of a conquering army, each player relies upon his tactical skill to outmanoeuvre and outfight his opponent. He must work out the best time to launch an attack, whether buildings, high ground or other features are worth capturing, and how terrain can be exploited to give troops cover.

Needless to say it is vital to choose the right troops: infantry to support your advance and occupy buildings, battle tanks to provide fire power, fast troops to rush round the enemy's flanks, and the near-unstoppable Titan to deliver the killing blow. Of course luck also plays a part, and the best generals will be prepared to take advantage of good fortune just as they guard against set-backs by the clever positioning of reserves. Ultimate victory belongs to the top general, the boldest stratagem and the finest of the galaxy's bravest warriors!

Space Marine contains over 540 plastic Epic scale Citadel Miniatures, including Land Raiders, Rhinos, Space Marine, Orks, Battlewagons, Eldar, Falcon Grav-tanks and a Warlord Titan. The game also comes with 10 full-colour, detailed card buildings with plastic roofs, over 50 Epic army cards for Orks, Eldar and Space Marines, reference sheets, 2 six-sided dice and 3 special scatter and aim dice, an easy to follow rulebook and over 100 counters and templates.

0352 Boxed Game (2 or more players ages 14-adult)



SPACE HULK

SPACE HULK

Drifting through the universe of Warhammer 40,000, the vast derelict spaceships known as space hulks bring a terrible threat to all Human life. Hidden within their corridors are thousands of terrifying, six-limbed aliens – the Genestealers.

Only the finest warriors of the Imperium, the Space Marines, can defeat this menace. They must board the decaying space hulks, clad in Terminator armour and carrying the finest weapons the Imperium can provide. Only the elite of the Space Marines are chosen to serve in Terminator Squads, trained to operate in the most dangerous of battlefield conditions and in the dark vacuum of starship boarding actions.

In Space Hulk, one player takes the role of the Space Marines, fanatical warriors dedicated to the destruction of the enemies of the Emperor of Man, equipped with awesome weaponry and massive Terminator armour. The other player takes the role of the Genestealers, fast, vicious, and super-strong alien creatures. The game takes place aboard a massive derelict vessel known as a space hulk, in which the aliens are invading human space.

Space Hulk contains 30 finely-sculpted plastic Citadel Miniatures (10 Space Marines and 20 Genestealers), 49 full-colour interlocking room and corridor sections, a rulebook, a missions book, colourful counters and 5 dice.

0331 Boxed Game (2 players ages 12-adult)

DEATHWING

Every hundred years, the Dark Angels chapter of Space Marines come to the world of the Plains People. BLOOD BOWL

BLOOD BOWL

For many people violence is a way of life. Some sign up as soon as they are able, and travel to far distant lands to fight for king and country. Others adopt the adventuring life seeking excitement and unimaginable treasure. But the really mean play Blood Bowl.

Blood Bowl is the game of fantasy football in the Old World. It terrifies even the most seasoned warrior. Strong men faint when they witness a rather mild Blood Bowl tackle. They simply cannot bear to watch the punishment a Blood Bowl player dishes out to his opponents.

But there's more to the game than that – the teams are trying to score Touchdowns. That's why all Blood Bowl players are skilled sportsmen as well as killing machines. After all, the team that wins the Blood Bowl Trophy does so by scoring the most Touchdowns, rather than obliterating every other team in the league. Though many players, and most of the fans, prefer the second way!

Blood Bowl contains a 3-part three-dimensional pitch made from expanded polystyrene, 32 plastic Citadel Miniatures (16 Humans and 16 Orcs), 4 plastic footballs, rulebook, background book, dug-outs, numerous templates, End Zones, a sheet of sticky-backed numbers, Team Cards, 4 six-sided and 1 eight-sided dice.

0271 Boxed Game (2 players ages 12-adult)

STAR PLAYERS

Star Players is an invaluable aid to every Blood Bowl Coach. It gives you all the information you'll need to use Star Players, the Astrogranite heroes who can make a good team great and a great team unbeatable. It includes details of their special skills, rules for creating your own Blood Bowl heroes and playing cards for the 48 of the Old World's top players.

This book also contains information on all the races of the Known World, including Dwarfs, Elves, Dark Elves, Skaven, Chaos Mutants and many more. Plus rules for Large Monsters and game statistics for eight of the all time great teams.

The campaign rules allow you to coach your team to the top of the Blood Bowl League, competing for the ultimate honour of the Blood Bowl Trophy. There's everything you need for hiring and firing Rookies, training them to become Star Players, and indulging in dirty tricks like bribing Refs and spying on other teams.

ELVES, DWARFS AND DUNGEONBOWL

Blood Bowl underground! Deep under the earth, 12 teams compete in the Dungeonbowl league, a variant of Blood Bowl sponsored by the Colleges of Magic. Hidden in one of the numerous trapped chests scattered around the dungeon is the ball. The teams must find it, hold on to it and score a Touchdown. If it's the wrong chest – boom, one less on the team. To make life even more difficult, the dungeon is criss-crossed with a network of Teleporters, so that a player may suddenly find himself surrounded by the other team appearing from thin air.

Elves, Dwarfs and Dungeonbowl contains 32 plastic Citadel Miniatures (16 Elves and 16 Dwarfs), 6 Dungeon Tiles, 2 End Zone Tiles, 4 plastic doors, 4 plastic spiked footballs, a rulebook and dozens of counters.

ADVANCED SPACE CRUSADE

Not since the time of the Horus Heresy has the future of the galaxy hung by so slender a thread. From a galaxy unimaginably distant comes a terrifying entity – the Tyranid Hive Mind – an intelligence that is utterly alien, a mind that is many interlinked minds. The Tyranids are six-limbed creatures which stand twice as high as a man and are protected by a natural armour of overlapping bony plates. The Tyranids have travelled to the Imperium in a hive fleet consisting of a great swarm of millions of spacecraft. Each spacecraft is a gigantic living creature, fashioned from organic tissue by sophisticated genetic manipulation. The Tyranid Hive Mind hungers for fresh gene-stocks that can be used to create new bio-construct creatures and organic machines. Humanity will be absorbed and used to create a new generation of bio-technology. It will be death to the human race, but to the Tyranid Hive Mind it is no more than the harvesting of a field of wheat.

It is the duty of the Space Marine Scouts to infiltrate the enemy lines. The Space Marine Scouts are fast and mobile, they wear lighter armour than ordinary Space Marines and are less heavily armed. Although not as experienced than their more senior battle brothers, they are by no means less feared. The Space Marine Scouts have been surgically altered to make them tougher, stronger and more capable than any ordinary human. They are led by Veteran Space Marines whose experience and bravery serve as an example of correct Space Marine conduct. One player controls the Space Marine Scouts and must destroy the Tyranid's living vessel by sabotaging its vital organic devices. The other player represents the Tyranids who must stop the Scouts by deploying Tyranid Warriors in different areas of the ship.

Advanced Space Crusade contains 21 plastic Citadel Miniatures (6 Tyranid Warriors, 15 Space Marine Scouts), 6 interlocking full-colour board sections, 16 doors, an illustrated rulebook, area effect templates, 36 exploration cards, weapon markers and a host of full-colour counters.
