Citadel Miniatures Catalogues 464

Welcome to the third Citadel Catalogue, a comprehensive update of the latest metal and plastic Citadel Miniatures, plus all the latest games and a special selection from the magnificent Marauder Miniatures range of gaming figures.

Citadel Miniatures

Citadel Miniatures manufacture the largest range of high-quality metal and plastic gaming miniatures in the world. Our Citadel designers work alongside the Games Workshop game designers ensuring that all our models are suitable for use by collectors, modellers and everyone who plays Games Workshop games.

What's more, everybody involved with the design of one of our new miniatures is a keen gamer – from the person who develops the initial concept, through the designer of the original model to the guy who does the final casting in white metal. Citadel Miniatures are made *by* gamers *for* gamers. Along every step of the way, the miniatures are carefully examined to make sure that they are as perfect as possible.

The Citadel Catalogues

The first Citadel Catalogue was separated into two sections: Warhammer 40,000 and Warhammer Fantasy miniatures, along with a comprehensive games listing. This all new third section updates both these major ranges; plus we've also included the complete Epic Space Marine range, all the latest developments in Games Workshop games and the first selection from the Marauder Miniatures range.

To make it easy to find what you require, we've divided the catalogue into sections, each one shows a complete range. High Elves, for example, are a range of miniatures found in the Warhammer Fantasy section of the third catalogue.

We have tried to make the Citadel Catalogues into the most complete reference source for Citadel Miniatures ever by presenting every single miniature possible in all its glory. These catalogues are an invaluable aid to anybody who collects Citadel Miniatures, allowing you to plan your next purchases and find exactly the right model for your army.

We have attempted to show every figure at actual size and with all their individual components so that you can choose the exact miniatures or parts you require.

Where appropriate, each model has been shown on a plastic slottabase of the correct size for use in our games. When you buy a model you'll automatically get the correct size slottabase you need.

Many of our models now come with separate plastic arms, weapons, shields or horses, this allows you to customise your miniatures. Where possible, we've illustrated these extra's on the same page, or given examples of the completed models. The plastic arm and weapon sprues which we haven't had room to show on the model's pages can be seen in the Plastic section of this catalogue. The correct sprues will always be included when you buy your models.

Multi-piece models

Some of our more complicated models are made of a large number of pieces. So that you can see exactly what you get with these models, we have illustrated each component separately as well as showing the completed model. We have also included construction diagrams where it isn't obvious how the models go together.

Note that our complicated multi-part models are intended for enthusiasts and you really do require a moderate level of skill to assemble them. They can certainly prove too difficult for young or inexperienced modellers. Please do not order them if you are uncertain of your skill!

How to Buy Citadel Miniatures

The very best way to buy Citadel Miniatures is at a Games Workshop store where you'll be able to examine the models at first hand. All our Games Workshop staff are collectors and gamers like yourself so they will be glad to help you choose exactly which miniatures you require, or offer advice on how to prepare and paint your models.

Every Games Workshop store has a wide selection of painted models, and runs regular painting sessions for beginners.

The vast majority of the models illustrated here are readily available from Games Workshop stores and other good hobby stores, however the range is so huge that only our mail-order department can supply everything.

We have included full details on the Games Workshop Mail Order service in the enclosed price list. If you have any questions about the availability of miniatures featured in this catalogue or indeed any other Citadel models give us a ring on 0773-713213 and our expert staff will do their best to help.

Updating your Citadel Catalogue

Obviously this catalogue will soon be out of date as our designers continue to produce many new and exciting figures every week, eventually we'll have enough to create the Fourth Citadel Catalogue.

In the meantime you can keep totally up to date by reading White Dwarf magazine. This third catalogue has been compiled mainly from the pages featured in the White Dwarf.

This monthly magazine contains news and details of all the latest releases from the Citadel & Marauder design teams, plus articles on painting and modelling as well as regular features on all your favourite games.

IMPORTANT

Citadel Miniatures and Marauder Miniatures are intended for collectors, modellers and gamers.

THEY ARE NOT TOYS.

Our metal models contain lead which can be harmful if ingested, but there is no real danger if you are sensible. Please follow these simple instructions:

– Please do not put them in your mouth or lick them.
– Do not buy them for or give them to small children.

Our miniatures should never be given to children under 14, nor to anyone who you cannot trust not to suck them.

Citadel Miniatures are supplied unpainted and without banners. For painting your miniatures we recommend you use Citadel paints and brushes. Where our models require construction, we recommend you use Citadel Polystyrene Cement and Citadel Superglue.

EMPIRE ARMY
REGIMENT OF ALTDORF

The army of the Empire consists of regiments drawn from its many provinces and city states. One of the most feared of which are the Halbediers of Altdorf. Wielding their heavy bladed, two handed weapons they attack their foes, chopping and thrusting until their enemies break and flee. The regiment marches into battle in the red and blue Altdorf livery with the black Imperial eagle displayed upon their shields.

This boxed set contains 30 plastic Citadel miniatures complete with seperate shields. Also supplied is a set of transfer sheets to provide you with sufficient designs for all the entire Altdorf regiment.

These models are supplied with separate arms allowing you to create a variety of different poses. SPACE WOLVES
BLOOD CLAWS

Blood Claws are the youngest and most ferocious Space Marine warriors of the Space Wolves Chapter. Their lust for battle and desire to get into close combat often overcomes their discipline as they surge forward against the enemy. Wolf Lords make good use of the Blood Claws ferocity by ensuring they are well-equipped with chainswords, grenades and other close-combat weapons.

This box contains a complete squad of ten Blood Claws Space Marine miniatures. These metal miniatures come with separate plastic arms, backpacks and bolters as well as a sprue of close-combat weapons. These sprues allow you to assemble your Blood Claws in an almost endless variety of poses. Also included in this box is a Space Wolves transfer sheet. Which provides all the markings you need to complete your Space Wolves Blood Claws squad, plus a number of honour badges and distinctions.

GOLDEN DEMON '92
GRAND FINALS

The 1992 Golden Demon Grand Final was the showcase for thousands of the finest painted miniatures in the world. Paul Robin's spectacular Warhammer Fantasy Battle Dwarf Army, featured below, won him the title of overall winner and the coveted Golden Demon Trophy.

The photograph above shows the entire Dwarf Army assembled on its specially constructed base. Even though Paul regularly fights battles with this army, he created the base to give it that extra impact for the Golden Demon finals.

These Troll Slayers make a stunning unit. Paul has painted up each of the miniatures as individual characters, giving them bright coloured hair and exotic body paint. Our favourite is the Troll Slayer with skeletal war paint and bright red swords, a truly fearsome model!

These two photographs show miniatures from the Crossbow and Thunderer units. They both clearly show the way that Paul has tied his models together into units. Although he has not painted up the dwarfs in a strict uniform, all the miniatures within a unit are linked by colours and definite styles of patterning.

Paul Robins
Golden Demon 1992
Overall Winner

Command Group and army standard. The brightly coloured pennants, wolf pelt and Celtic style knot work all combine to make this a worthy centre piece for the army.

The unit of Longbeards shown in these two photographs has been painted in a very strong colour scheme. Note how the devices on the shields contain a simplified version of the banner design, and the same patterning has been carried through to the helmets, surcoats and gauntlets of the models.

Dwarf armies are characterised by their war machines and both of these models display Paul's fantastic attention to detail. The finishing touches include the rope made from twisted wire, a pile of cannon balls and the brazier of glowing coals.

Without doubt the brightest and most spectacular unit in the army is the Dwarf Warriors armed with pikes. The bright combination of colours on the uniforms and the striped pikes really makes them stand out from the other units. Their large and colourful banner also helps to give them a powerful presence on the battle field.

HIGH ELF WAR GRIFFON

Griffons are large flying creatures with the forequarters of a ferocious bird of prey and the hindquarters of a great hunting cat such as a lion or tiger. Although they normally inhabit the tallest crags of the Worlds Edge Mountains, a few have been taken from their nests and raised in captivity. Only the mightiest of Heroes are able to ride Griffons into battle, where their razor sharp claws and hooked beak can rend their foes apart. High Elves are particularly renowned for their mastery over these awesome beasts.

SPACE WOLVES
GREY HUNTERS

The Space Wolves are the most ferocious of all Space Marine warriors, bred on the harsh world of Fenris where savage tribes are locked in a continual struggle for existence. The Grey Hunters make up the majority of any army fielded by the Space Wolves. These are warriors in their prime, tempered by battle yet still hungry for a place in the elite Wolf Guard. They are proud and fierce fighters who have acquired all the skills of combat to enable them to crush any foe in battle.

This box contains ten Space Marines in Mark VI and Mark VII power armour, including six with wolf totems and pelts to add variety to your squads. These metal miniatures come with separate plastic arms, backpacks and bolters plus a sprue of close combat weapons. Allowing you to assemble your Grey Hunters in an almost endless variety of poses. Also included in this box is a Space Wolves transfer sheet which provides all the markings you will need to complete your Space Wolves Grey Hunter squad plus a number of honour badges and distinctions.
