Citadel Miniatures Catalogues 592

Welcome to the fourth Citadel Catalogue, a comprehensive update of the latest metal and plastic Citadel miniatures, plus all the most recent Games Workshop games and supplements.

Citadel Miniatures

Citadel Miniatures manufacture the largest range of high quality metal and plastic gaming miniatures in the world. Our Citadel designers work alongside the Games Workshop game designers ensuring that all our models are suitable for use by collectors, modellers and everyone who plays Games Workshop games.

Everybody involved with the design of one of our new miniatures is a keen gamer - from the person who develops the initial concept, through the designer of the original model to the guy who does the final casting in white metal. Citadel miniatures are made by gamers for gamers. Along every step of the way, the miniatures are carefully examined to make sure that they are as perfect as possible.

The Citadel Catalogues

The first Citadel Catalogue was separated into two sections: Warhammer 40,000 and Warhammer Fantasy miniatures, along with a comprehensive games listing. Sections Three and Four update both these major ranges, and also include Epic scale miniatures, plastics, and the latest Games Workshop games.

To make it easy to find what you need, we've divided the catalogue into sections – Warhammer 40,000, Warhammer Fantasy and Epic. Each section is broken down into specific ranges. The Warhammer 40,000 section of the Fourth Catalogue contains the latest Eldar and Space Marines releases, for example.

We have tried to make the Citadel Catalogues into the most complete reference source for Citadel miniatures ever by presenting every single miniature possible in all its glory. These catalogues are an invaluable aid to anybody who collects Citadel miniatures, allowing you to plan your next purchases and find exactly the right model for your army.

We have attempted to show every model at actual size and with all its individual components so that you can choose the exact miniatures or parts you require.

Where appropriate, each model has been shown on a plastic slottabase of the correct size for use in our games. When you buy a model you'll automatically get the correct size slottabase you need. 'Flying' models come with a clear plastic flying base.

Many of our models now come with separate plastic arms, weapons, shields or horses, which allows you to customise your miniatures. Where possible, we've illustrated these extras on the same page, or given examples of the completed models. The correct sprues will always be included when you buy your models.

Multi-piece models

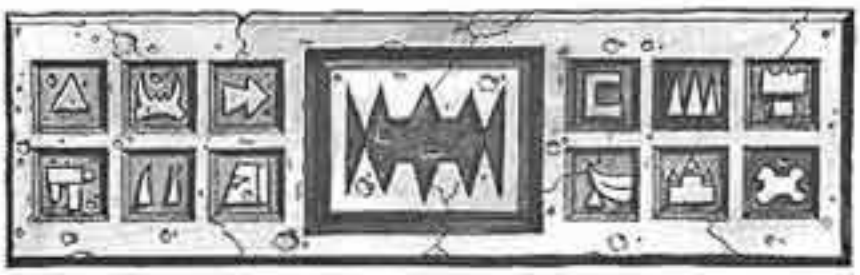

Some of our more complicated models are made of a large number of pieces. So that you can see exactly what you get with these models, we have illustrated each component separately as well as showing the completed model. We have also included construction diagrams where it isn't obvious how the models go together.

Note that our complicated multi-part models are intended for enthusiasts and you really do require a moderate level of skill to assemble them. They can certainly prove too difficult for young or inexperienced modellers. Please do not order them if you are uncertain of your skill!

How to Buy Citadel Miniatures

The very best way to buy Citadel miniatures is at a Games Workshop store where you'll be able to examine the models at first hand. All our Games Workshop staff are collectors and gamers like yourself so they will be glad to help you choose exactly which miniatures you require, or offer advice on how to prepare and paint your models.

Every Games Workshop store has a wide selection of painted models, and runs regular painting sessions for beginners.

The majority of the models illustrated here are readily available from Games Workshop stores and other good hobby stores, however the range is so huge that only our mail-order department can supply everything.

We have included full details on the Games Workshop Mail Order service in the enclosed price list. If you have any questions about the availability of miniatures featured in this catalogue or indeed any other Citadel models give us a ring on 0773-713213 and our expert staff will do their best to help.

Updating your Citadel Catalogue

Obviously this catalogue will soon be out of date as our designers produce many new and exciting models every month, and eventually these new models will be gathered together into the Fifth Citadel Catalogue. In the meantime you can keep totally up to date by reading White Dwarf, Games Workshop's monthly magazine. This magazine contains news and details of all the latest releases from the Citadel & Marauder design teams, plus articles on painting and modelling as well as regular features on all your favourite games.

IMPORTANT

Citadel miniatures and Marauder miniatures are intended for collectors, modellers and gamers.

THEY ARE NOT TOYS.

Our metal models contain lead which can be harmful if ingested, but there is no real danger if you are sensible. Please follow these simple instructions

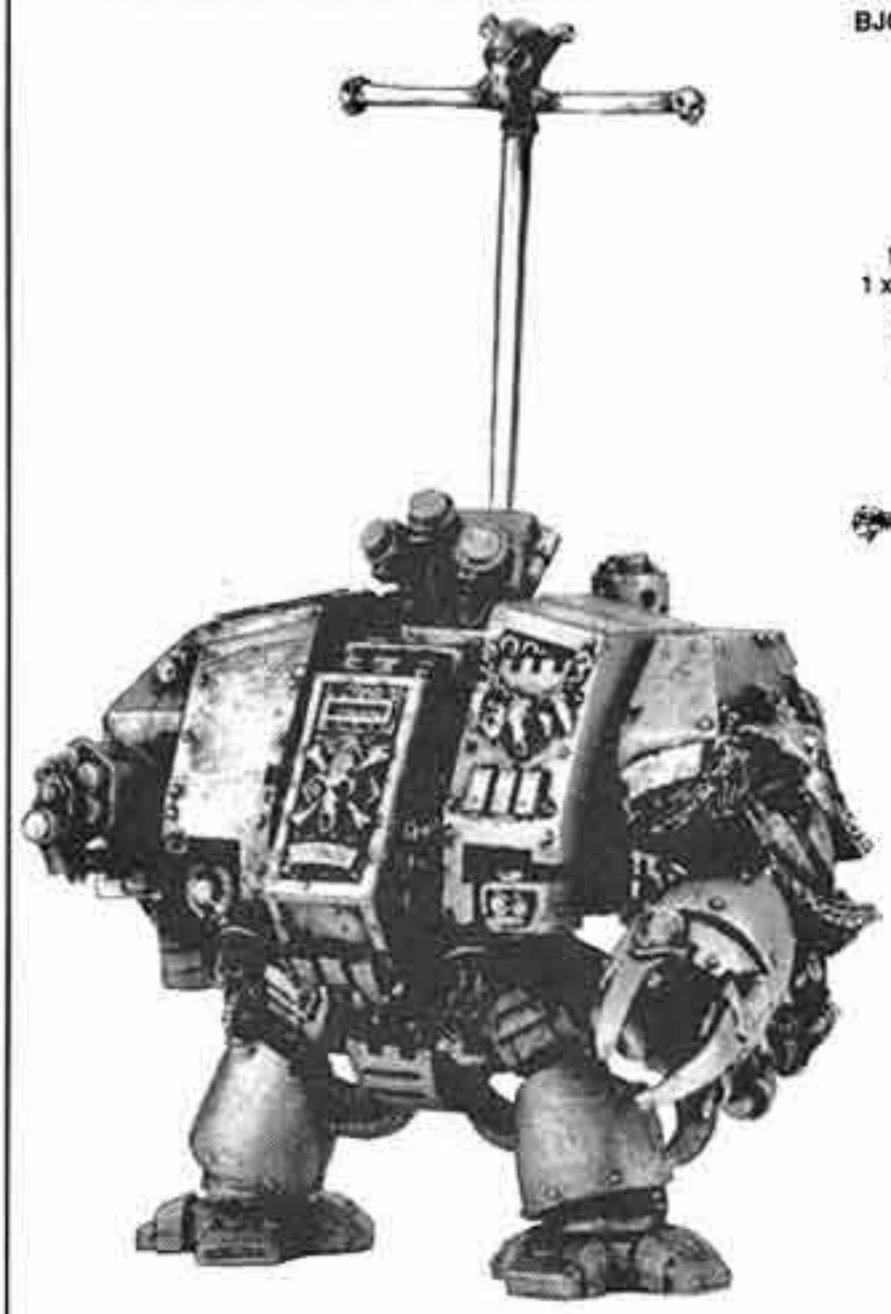

Please do not put them in your mouth or lick them. Do not buy them for or give them to small children.

Our miniatures should never be given to children under 14, nor to anyone who you cannot trust not to suck them.

Citadel miniatures are supplied unpainted and without banners. For painting your miniatures we recommend you use Citadel paints and brushes. Where our models require construction, we recommend you use Citadel polystyrene cement and Citadel superglue.

BJORN THE FELL-HANDED SPACE WOLVES DREADNOUGHT

Bjorn the Fell-Handed is a mighty totem of the Space Wolves fighting history. His massive Dreadnought armour is an honoured Chapter artifact that represents an unbroken link through the centuries to the Space Wolves' legendary founder Leman Russ. Bjorn actually fought alongside Russ during the early days of the Space Wolves Chapter and he is a potent reminder of those epic times.

Between battles Bjorn's armour is constantly maintained by the Chapter's Iron Priests, Rune Priests and Artificiers.

Within the armour Bjorn rests, gathering his strength, awaiting the moment when his awesome power is needed by the Space Wolves and once more he has to crush their foes.

RAGNAR'S BADGE

ARMY BADGE

BJORN'S BANNER depicts him as a powerful member of the Blood Claws in the days of Leman Russ.

Amongst the trophies and icons displayed by Bjorn are badges and markings which refer to his early days as a warrior with the famed Leman Russ. The black, red and white pack marking is an archaic form of those currently in use by the Space Wolves.

Leman's badge marks Bjorn as having fought alongside Russ in ancient times. The badge of Ragnar and the army badge are additions to Bjorn's heraldry and simply refer to his being a part of Ragnar's current task force.

ASSAULT CANNON

BJORN'S WEAPONS

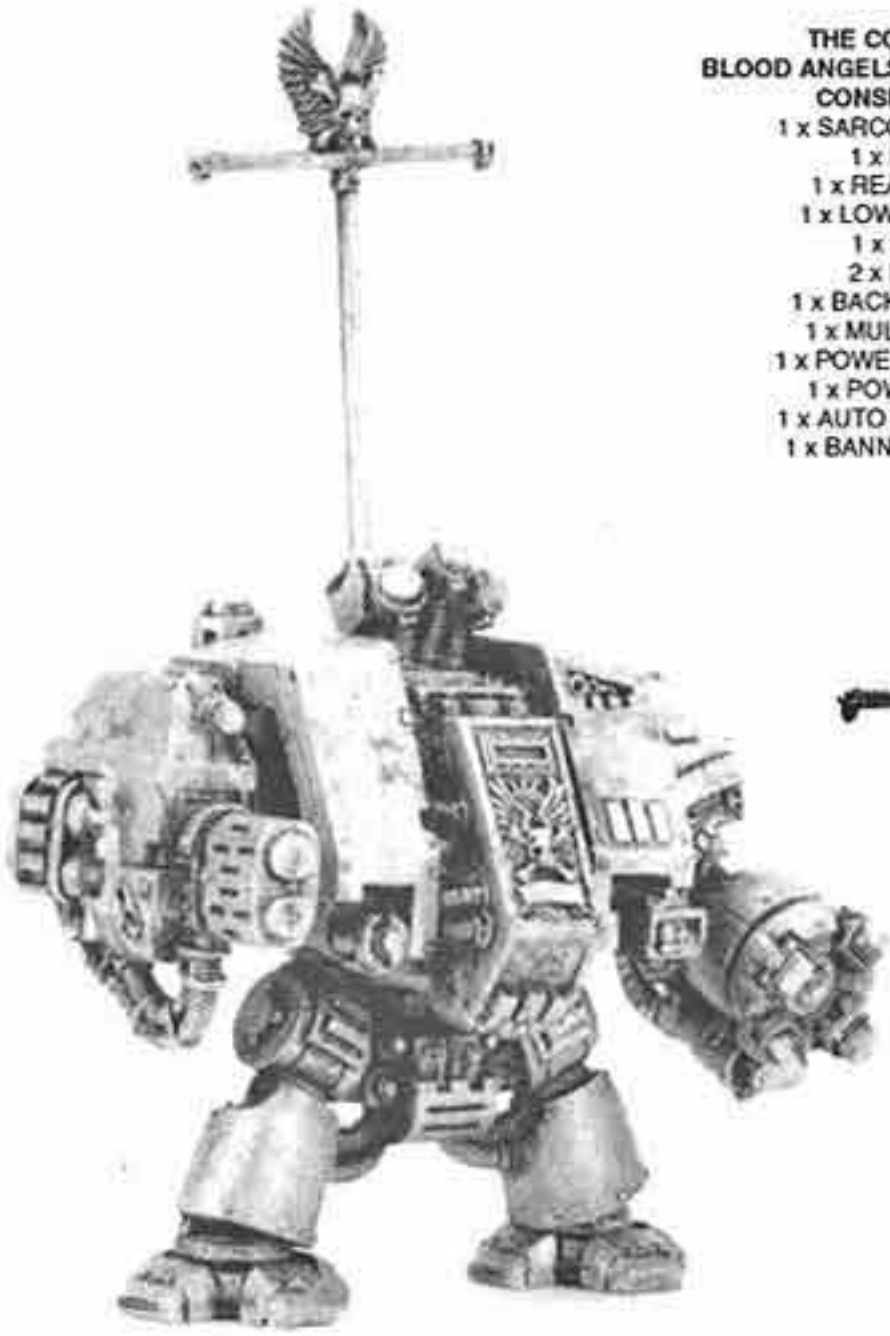

Over the centuries Bjorn has wielded an enormous variety of different weapons. He is currently armed with an assault cannon and a lightning claw, the latter having an additional heavy flamer attatched. Despite the vast destructive potential of this wargear it is his fighting spirit, legendary personality and battlefield experience which are Bjorn's strongest weapons.

ULTRAMARINES SPACE MARINE ASSAULT SQUAD

Ultramarines assault troops are ever at the forefront of the most hard-fought battles in the galaxy. Equipped with powerful jump packs to quickly seize objectives, and armed with a chainswords, plasma pistols and other deadly hand-to-hand weapons, Space Marine assault troops are some of the toughest close combat warriors in the Imperium.

The Ultramarines are amongst the oldest and most renowned Space Marine Chapters. They are famous not only for their many victories in battle but also for their strict adherance to the Imperial orthodoxy laid out in the Codex Astartes. This great manual, set down by the Emperor himself, covers all aspects of the Chapter's life from details of uniform and markings to grand strategy.

ULTRAMARINES SPACE MARINES WITH JUMP PACKS

The Codex Astartes lays down a strict system of identification by giving each company a distinctive colour. The Company shown has yellow markings which appear most notably on the warrior's shoulder pad trim. The squad sergeant is distinguished by his red helmet and the red skull applied to his Chapter badge.

SPACE MARINE BLOOD ANGEL DEVASTATORS

SERGEANT

The Devastator Squads of the Blood Angels Chapter are distinguished from the Tactical Squads by their blue helmets. Otherwise they display standard Blood Angel insignia: bright red armour with predominantly black markings. The Sergeant and Veteran trooper have reversed shoulder pad schemes to denote rank - each can lead a five-man combat squad into battle.

The Sergeant's banner displays the squad number, in this case nine, and each Space Marine displays the squad badge on their right kneepad.

ULTHWE GUARDIANS SQUAD ARMED WITH CLOSE COMBAT WEAPONS

Each squad of Guardians is distinguished by a minor variation in its uniform - often in the colour of helmets, sashes, and weapons. A squad will often have its own unique helmet patterning, and a selection of common styles is illustrated here. Although we have chosen Ulthwé Guardians, the same applies to all the Craftworlds.

WARLOCK WITH SINGING SPEAR

WARLOCKS OF ULTHWE

The traditional colours of each Craftworld are reflected in the uniformes of its Guardians. These same colours commonly appear on the robes of the Craftworld's leaders and psykers. Together with the use of the Craftworld rune, these theme colours identify the Craftworld to which any Eldar belongs.

Farseers and Warlocks can easily be identified by their force weapons and distinctive Wraithbone helmets.

SPACE MARINE®

The Great Gargant is the most powerful of all Space Ork Mekboy inventions. Its vast body houses a multitude of orky engines, generators and dynamos, which power its frightening array of awesome weaponry. The Mega-cannon mounted in its belly and on its arm blast its enemies with massive destructive power. The Super Lifta-Droppa can pound armoured enemies into the ground and the Gork head has massive Traktor Cannons mounted in the eye sockets to drag its opponents to their certain doom.

CITADEL® MINIATURES

Citadel Miniatures are supplied unpainted. This model requires assembly. We recommend that parts are carefully cleaned and trimmed with a modelling knife before painting with Citadel paints. This is a Citadel Miniatures expert kit and requires a degree of modelling skill. We do not recommend this kit for young or inexperienced modellers.

CHAOS DWARFS

Chaos Dwarfs are evil, self-centred creatures, caring nothing for the life of others and directing all their labours to the construction of their great city, the Tower of Zharr-Naggrund. Chaos Dwarf armies scour the Dark Lands and beyond for slaves to labour in the mines and factories or as sacrifices to their dark god Hashut.

DWARF KING'S THRONE OF POWER

Thorgrim, Dwarf king of Karaz-a-Karak is known as the Grudge Bearer because he keeps his own personal copy of the Dammaz Kron or Book of Grudges with him at all times. In battle Thorgrim recites ancient and damning grudges from the book inflaming the Dwarves with hatred for their enemies, with the result that they become resolute and almost unbreakable in combat.

The throne of power is an ancient Dwarf relic which has been used by the kings of Karaz-a-Karak for over four thousand years. Encrusted with countless powerful runes, it confers magical protection upon the king and his throne bearers and is able to heal them from the effects of wounds.

DWARF SLAYERS

Dwarf Slayers seek a heroic demise by hunting out and fighting the largest monsters they can find. They never wear armour, spurning the very idea of self-preservation. They carry an axe. Often a very big axe.

Although driven to seek their death in battle Slayers are incapable of deliberately fighting to lose, and always enter the fray to win. The most skilled Slayers, the least successful ones in a sense, tend to survive either because they are the toughest, the fastest, or the most determined warriors in the Warhammer world.

THE UNDEAD

In the Warhammer World the dead do not rest easy. Vampires lurk in haunted castles in the sinister forests of Sylvania. Necromancers seek to escape their mortality by searching for forbidden knowledge within the pages of accursed books. In lost cities buried beneath the desert sands of the Land of the Dead, the Tomb Kings rule over legions of corpses, their servants in death as they were in life. And behind all of this towers the ancient shadowy figure of Lord Nagash – the Great Necromancer, once human but now powerful enough to rival the Gods themselves.

This essential supplement for the Warhammer game describes the armies of the Undead in complete detail. The book contains a full history of the Undead together with an army list that includes rules for all the Undead creatures, characters, warriors and war machines. There are also a set of 10 new Necromantic Magic spell cards as well as over a dozen new Magic Item cards and an exciting Undead scenario – Revenge of the Doomlord.

Warhammer Armies books for the Empire, Dwarfs, Orcs and Goblins, High Elves and Skaven are also available along with the Warhammer Battle Magic supplement.

WARHAMMER ARMIES DWARFS

Renowned as battle-hardened warriors, Dwarfs have endured centuries of war and conquest to establish their mighty Empire among the Worlds Edge Mountains. This supplement describes the Dwarfs' Empire and history, from the great days of the Ancestor Gods to the sorry times of the present. It includes details of the Dwarfs' language, their music, writing, and magic runes.

The Dwarf army list includes details about Runesmiths, Hammerers, Iron Breakers, Long Beards, Thunderers, Slayers, Cannons, Organ Guns, Flame Cannons, and more warriors and war machines. A full list is provided for Dwarf heroes past and present, including Ungrim Ironfist the Slayer King of Karak Kadrin, Thorgrim Grudgebearer the High King of Karaz-a-Karak, the renowned Slayer Gotrek Gurnisson and Joseph Bugman Dwarf Master Brewer.

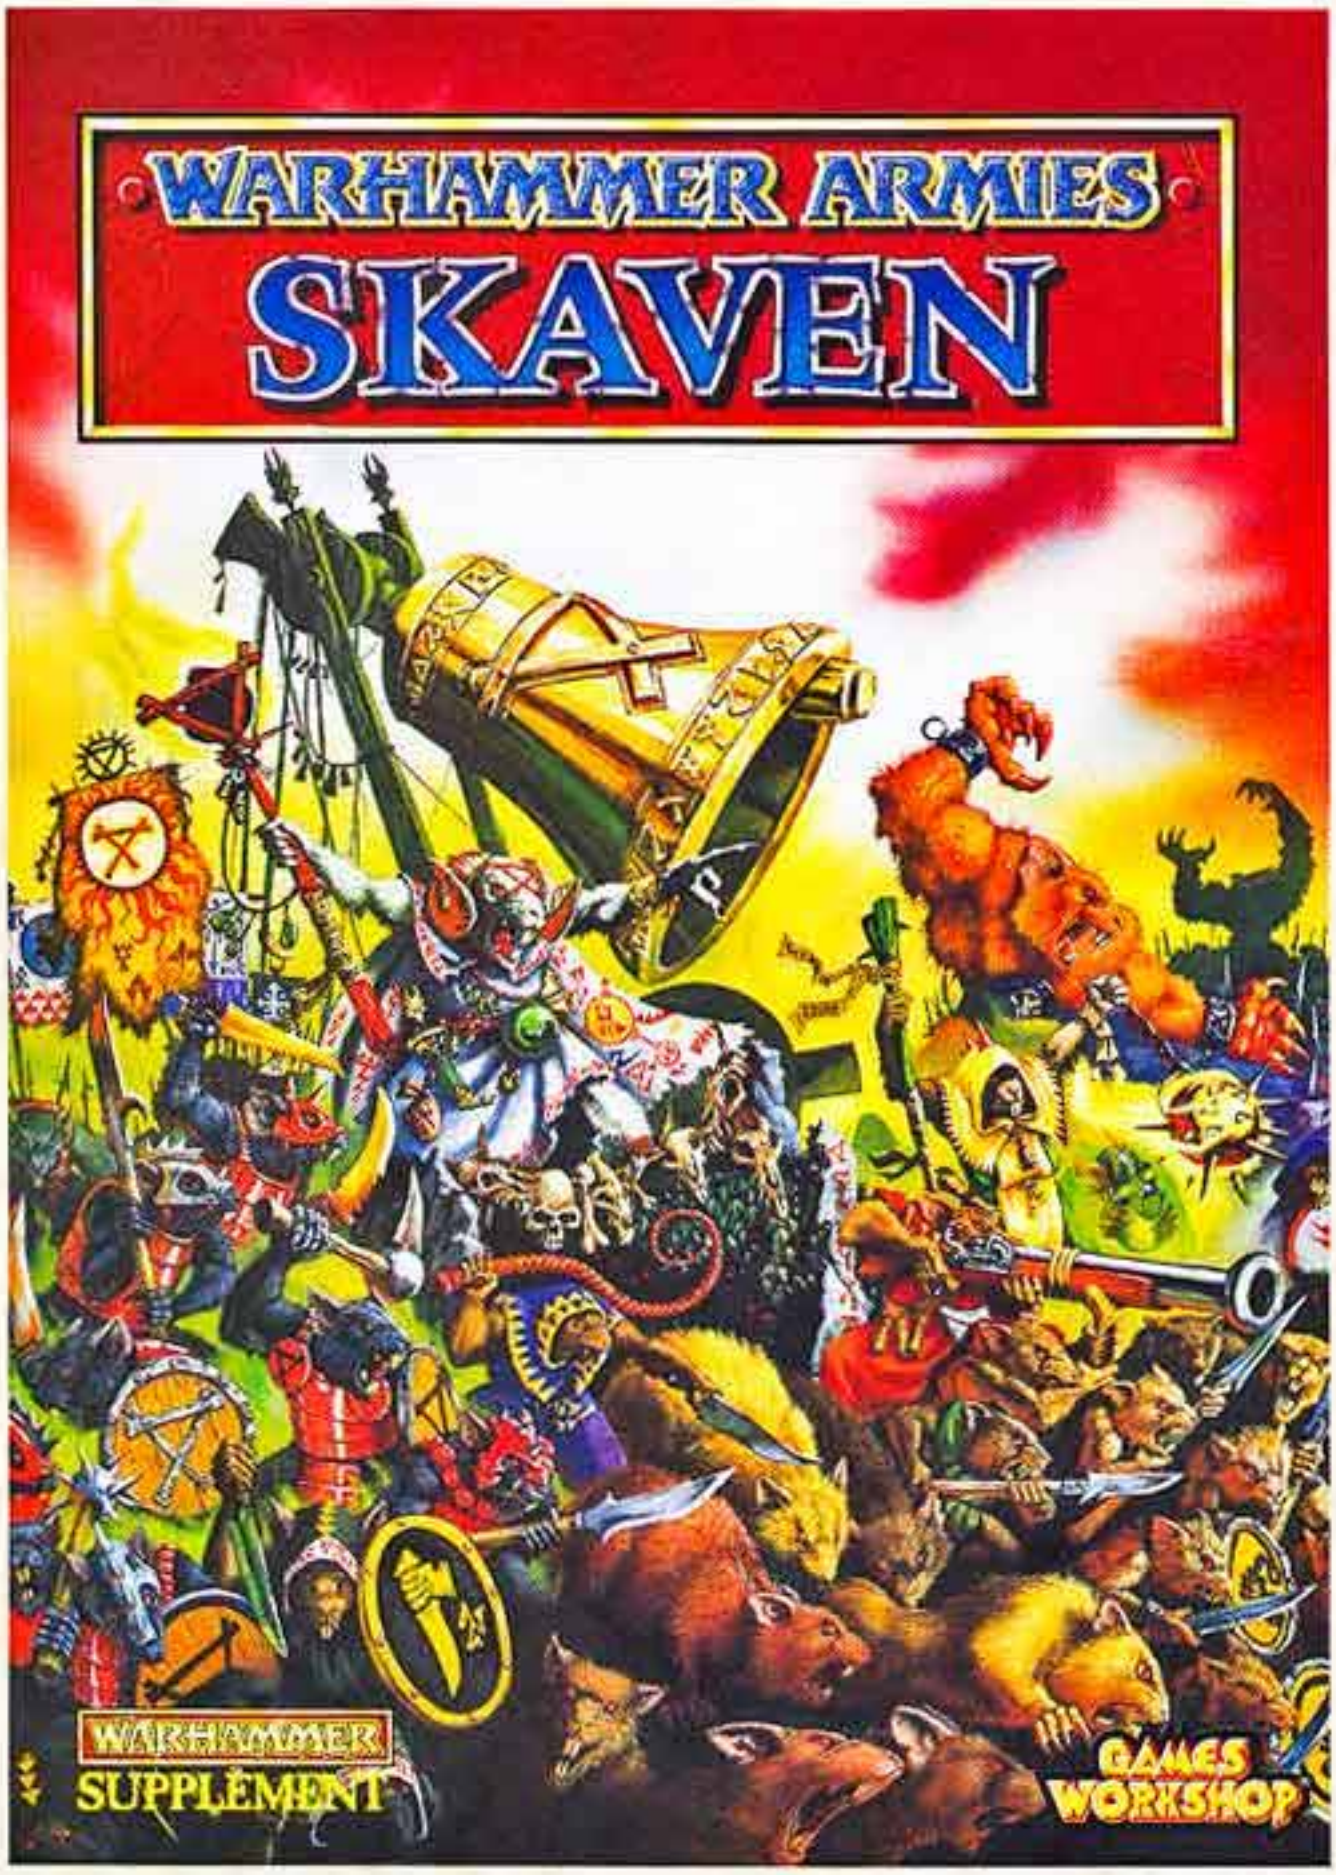

Special rules include details of the game rules for all Dwarf war machines and warriors including the Flame Cannon, Organ Gun, Slayers, and Runesmiths. A complete new magic rune system is described allowing Dwarfs to build their own powerful magic weapons, armour, standards, war machines and talismans.

In addition Lord Duregar leads a Dwarf army into a ferocious battle against Orcs and Night Goblins at the very gates to the ancient stronghold of Karak Eight Peaks — a new Warhammer scenario.

WARHAMMER

THE SKAVEN

The vile and malevolent Skaven gnaw through the roots of the Old World like a malignant cancer. From their sprawling capital of ancient evil, Skavenblight, their Under-Empire spreads ever outward as seething hordes of vicious rat-men lie waiting to bring the final apocalypse down upon the unsuspecting realms of men.

Hidden from the eyes of men black-clad assassins slink through the sewers, rabid Plague Monks brew magical pestilences, insane Warlock Engineers build their devastating weapons of mass destruction and foul Packmasters mutate warped and deadly war-beasts to unleash upon their foes.

Through the ancient and evil Lords of Decay the Horned Rat himself, dark god of the Skaven race, cynically guides his children to their ultimate destiny of complete mastery of the entire world!

This indispensable supplement for the Warhammer game of fantasy battles describes the Skaven race and their unspeakable horror in complete and exhaustive detail.

The Empire, Dwarfs, High Elves, and Orc & Goblin armies books are also available along with the Warhammer Battle Magic supplement.
